EasyCare Dent Repair (EDR) is a Paintless Dent Repair process developed by automobile manufacturing production teams to remove small dents and dings from painted sheet metal surfaces without harming the vehicle's factory finish.

Services will be provided by EDR qualified Service Technicians who are highly skilled craftsmen that utilize specialized hand tools to manipulate and flex the metal back to its original form.

Paintless Dent Repair works from behind the vehicle's damage, therefore, it does not require sanding, painting or body fillers.

In most cases, there is no evidence a dent ever existed.

### EDR Coverage

- One year plan covers 2 Paintless Dent Repair visits
- 2-5 year plans cover unlimited Paintless Dent Repairs for the length of the term you select

### Benefits of EDR

- No deductible
- EDR services includes a lifetime repair warranty which guarantees 100% customer satisfaction that dents and dings will not re-appear
- Factory warranties do not protect against dents and dings
- EDR services are more convenient and less time consuming than traditional body shop repairs
- May reduce lease turn-in penalties
- Removal of dents significantly increases the trade-in or resale value of your vehicle
- Transferable to the next owner
- Keeps your car looking new longer
